HESSEN

We build bridges

Between the community and the healthcare system as
multipliers and language mediators

Neu-Isenburg health guides have been qualified to promote the health literacy of people
with a migration background

We provide information

- about health and support serviceste
- about precautionary and preventive measures
- about the German healthcare system

We help

- to overcome cultural barriers
- by explaining rules and applications
- by accompanying you to healthcare facilities

For example

- Help with applications, telephone calls, making appointments
- Accompanying people to appointments with a doctor
- Referral to specialised services

*We speak German,
English, Amharic,
Arabic, Dari, Farsi,
Tigrinya and Turkish*

But we are not professional interpreters and do not do sworn interpreting
